## Program Overview

The first musical theatre training program of its kind in India, KMMC's one year Certificate in Musical Theatre is an opportunity for students to delve deep into the heart, history, traditions, and performance practices involved in becoming a Broadway live "triple threat" (sing, act, dance) performer.

The Certificate in Musical Theatre will give students first-hand insight and experiences in working collaboratively to bring a musical theatre production to life. Students may also choose to be involved in backstage and technical aspects such as stage management, props, costumes, and sound/lighting design. The program will culminate with a large musical production featuring all participants in various departments.

This program is open to all students enrolled at KMMC with specific courses offered as electives in Foundation and Diploma. It can also be taken as a standalone program for those students who are new to the conservatory and are interested in taking strictly musical theatre related topics.

Various Broadway and international guest teachers will contribute to course teachings and mentorships throughout the year, giving students the opportunity to engage with working professionals in the field and build their professional network.
